

Stainless steel table with diamond centre tie bar

SKU: TLTA-CT/M90x60

Description

Our stainless steel table with centre tie bar is a very versatile work surface and storage solution for industries that require sterile, hygienic and contamination resistant surfaces.

The table has been completely redesigned to be even easier to clean, reducing harbouring surfaces and removing potential trap points.

Easy clean features include diamond centre tie bar which has been raised to 300mm from the ground to aid ease of cleaning and also to allow for extra space underneath so it can be utilised for extra storage.

Finished in brushed dull polish, these tables come with 304L-grade stainless steel construction including plastic floor levelling adjustable feet, or stainless steel castors.

The sturdy 30mm box frame grants robustness to the table so you don't have to worry about payloads.

Dimensions
