

## Stainless steel lectern with undershelf

**SKU:** TLLE-1S60x40

### Description

Our stainless steel single shelf lecterns are intelligently designed to be easy to clean, with potential trap points being designed out. The shelf is 670mm from the bottom of the lectern making it ideal for storage and access for cleaning. Sturdy 30mm box frame legs maintain the robustness renowned in Teknomek products.

The 600mm width is ideal for holding documents up to A3 size while the front ledge keeps documents in place.

As with all our products, our solid undershelf lecterns are suited to rigorous hygiene and HACCP routines, meaning you can rely on Teknomek to deliver a hygienic, durable and easy to clean product which is perfect for purpose.
