

Seating bench with compartments

SKU: CRSE-SB1SSC12x35

Description

Our stainless steel seating with compartments for storage is manufactured from 304L-grade stainless steel in a brushed dull polish finish.

This seating bench is cleverly design as it is compact, hygienic and robust. Moreover, the compartments below the bench provide a convenient storage space with easy access and the stainless steel adjustable feet with non-marking rubber base complete the design. The bench is ideal for changing rooms and it comes with 250kg payload.

Available in both 1 and 2 tiers, with a range in compartments from 5 up to 20.

Do you need to add extra corrosion resistance? Perhaps what you need is 316L-grade stainless steel version, contact our team for more information.
