

## Seating/Step over bench with hanging rack

**SKU:** CRSE-SBHR-10X40

### Description

Our stainless steel seating/step over bench with hanging rack is manufactured from 304L-grade stainless steel in a brushed dull polish finish and like our standard range of seating benches, has a chamfered edge design to ensure a smooth structure for extra comfort.

However, this seating bench has the added benefit of an overhead hanging rack, optimising usually wasted space for storage of aprons and coats.

This stainless steel seating/step over bench with hanging rack is ideal for changing rooms and its tough, fully welded 40mm box section frame ensures longevity no matter your industry.
